# Kingdomware Technologies, Inc. Receives
Small Business of the Year Award

Greetings!

In a ceremony held last Wednesday, June 16 from 6:00 - 9:30 pm in Waldorf, MD, **Kingdomware** received the Small Business of the Year Award for the Southern Maryland region (encompassing Charles, Calvert and St. Mary's Counties) from the Leading Edge Awards (LEA). The LEA are co- sponsored by the Pax Partnership, the Charles & Calvert County Tech Councils, the Southern MD Economic Development Association, and the College of Southern Maryland's (CSM's) Entrepreneur and Leadership Center, Small Business Development Center, and CSM's Foundation.

The LEA, according to a June 10th article in the Maryland Independent newspaper article "*honor the best and brightest in business celebrating local companies and organizations that exemplify the spirit of innovation and set the standard for business growth in our region.*"

Kingdomware was not only recognized for its custom software engineering and management consulting services and solutions but its proprietary solutions including the

1) **Business Notifier**, its emergency notification, accountability, and messaging solution,
2) **Information Kiosk** , its information dissemination, process automation and employee recognition solution, and
3) **Employee Relations Database**, its action recording, tracking and retrieval solution.

All of **Kingdomware's** solutions are currently being used by federal agencies such as **USAID**, **GSA** and **NIH**, local government and businesses.

Kingdomware has other proprietary solutions. One is at **IndirectRates.com** and assists contractors and non-profits trying to calculate their indirect rates for bidding on government contracts. More on **Kingdomware's** solutions can be found on both the *Portfolio* and *Applications* pages of our **website**.

If you have any questions about any of our services or offerings, please do not hesitate to **contact us**.

Sincerely,

L. Barton
